

Besty Dog Collars wants to make sure that your dog's collar fits him as comfortably as possible.

## To use our FREE tape measure

- Cut out, leaving a little white tail after each section.
- Line up the blue sides so they are JUST touching and covering the white tail. (The zeroes will not match up perfectly.)
- Tape the sections together to use.

## For plastic snap buckles:

- Measure your dogs neck as described to the left
- Please enter THAT number into the order form (in addition to the order size)

We need to make sure embroidery work is not covered up by any part of the plastic buckle adjuster.
